PROFILE

Magna Cum Laude IT graduate with a solid foundation in programming, system development, multimedia, artificial intelligence, project management, and research. Combines technical expertise with creative problem-solving and digital content creation, demonstrating leadership through academic and team-driven projects that consistently deliver practical, high-impact solutions. Adaptable and proactive, with a strong commitment to continuous learning across dynamic, multidisciplinary environments.

WORK EXPERIENCE

University IT Instructor

Jul 2025 – Apr 2026

St. Paul University Surigao

- › Taught tertiary-level IT subjects — Database, Information Assurance & Security, AI, and Programming.
- › Appointed as the department's only fresh-graduate instructor, reflecting strong academic and professional capability.
- › Served as Moderator of the Junior Society of Information Technologists (JSIT), leading IT-based initiatives.

Software Developer Intern

Feb 2025 – May 2025

City Government of Surigao — MIS Division

- › Developed and deployed a Sphinx-based system manual for the Document Management Support System using Python, HTML, CSS, and JavaScript.
- › Produced a multimedia video manual using AI tools (ElevenLabs) and editing platforms — Canva, OBS Studio, and post-production tools.
- › Gained hands-on experience with version control and collaborative development using Git.

Technical Content Developer

Sep 2019 – May 2025

SEO, Writing & Software Development · Freelance

- › Applied SEO-driven approaches to create digital and written content aligned with client preferences.
- › Built software projects integrating structured content platforms (Sphinx, Omeka) for organization and server-side functionality.
- › Produced academic-style papers and content-driven experiences emphasizing clarity, structure, and engagement. Freelance Blogger 2016–2019.
